6. Where you received your bachelors degree, and when.

Bachelor of Engineering, Ahmadu Bello University, Zaria. Nigeria. 2005

7. *Where and when for degrees higher than the bachelor level (before coming here)*

Postgraduate Diploma in Satellite Communication, African Regional Centre for Space Science and Technology Education in English, Ile-Ife. Nigeria

8. *If you are a PNST Fellow, where/how did you find out about PNST?*

I am not a PNST Fellow.

9. *What attracted you to SEIC in the first place?*

I believe Kyutech SEIC is one of the best places to study for me in Japan as the course is entirely taught in English language; I was also interested in the state of the art satellite development and testing equipment at LaSEINE.

10. *What is the strength of SEIC?*

I think SEIC is first of its kind in Japan, so it's really a good way to show how international students from diverse multicultural background can form a formidable force to achieve hands on satellite projects.

11. *What did you enjoy about studying in Japan?*

Japan is an interesting country, the people are friendly and always ready to assist and the environment is conducive for learning.

12. *You are about to graduate with what degree? - Masters, Phd, or pending.*

Master degree

13. *What is the title of your graduation thesis?*

Development of Plasma Measurement System for Lean Satellite, HORYU-IV

14. *Please list the conferences that you attended while at Kyutech*

30th International Symposium on Space Technology and Science
4th-10th July, 2015, Kobe-Hyogo, Japan

58th Space Science and Technology Conference, Nagasaki, Japan.
12th-14th, November, 2014

Asia Oceania Geosciences Conference; Hokkaido, Japan. July 28th-1st
August, 2014

15. *When did your study at Kyutech start (month and year)?*

October 2013

16. *On what date (day month year) do you leave Japan?*

[Editor's note: Taiwo, as of October 2015, has elected to remain at Kyutech to pursue a Phd, which will require three years.]
